

Light Distressing

Little more than softening with a limited number of light usage marks (normally on semi-formal items only).

Medium Distressing

Normal usage marks on items in daily use in a country farmhouse home for 200 years. Some physical damage and indentations, insufficient to affect practical use.

Heavy Distressing

A much harder used item over a 200 year plus period. Physical wear areas to edges with more pronounced indentation.

Savaged

Severe damage as in heavy distressing but all marks are significantly enhanced and increased particularly defiles and intrusions. There will be a small areas with sufficient distress to prevent small objects such as wine glasses standing evenly.
